Mumbai, India.

PROFESSIONAL SUMMARY

Software Developer with 3 years of experience in data-driven enterprise and banking applications, transitioning into a Data Analyst role. Hands-on experience with SQL, Advanced Excel, Power BI, and Python, with strong skills in data cleaning, analysis, visualization, and reporting. Additionally, experienced in software testing, including API testing, functional testing, and data validation to ensure accuracy and system reliability. Currently pursuing a Data Analytics certification and seeking entry-level / junior Data Analyst opportunities.

DATA ANALYTICS & TECHNICAL SKILLS

- Analytics Tools:** SQL (Joins, CTEs), Advanced Excel (Pivot Tables, XLOOKUP), Power BI (Dashboards, Basic DAX), Python (Pandas – Basics, libraries)
- Data Skills:** Data Cleaning, Data Transformation, Data Visualization, KPI & Trend Analysis, Functional Testing, Regression Testing, API Testing (Postman), Bug Tracking, Data Validation & Verification
- Databases:** SQL, MySQL, Outsystems Database, Oracle
- Programming :** C#, JavaScript, HTML, CSS, Outsystems, WebAPI, Postman, MVC

PROFESSIONAL EXPERIENCE

Quality Software Technologies(Project-Based) - Data Analyst

Thane | Dec2025 - Present

- Analyzed operational, asset, and loan datasets using SQL and Advanced Excel
- Cleaned, transformed, and validated data to identify trends and inconsistencies
- Built Power BI dashboards and reports to support business decision-making
- Applied concepts from Statistics, Python (Pandas – basics, libraries), Excel, and Power BI on real datasets as part of ongoing Data Analytics training

Finoux Solutions Pvt. Ltd - Software Engineer

Andheri | Apr2022 - Oct2025

- Developed and maintained critical banking software applications by implementing APIs, enhancing and developing UI/UX, and integrating complex SQL queries.
- Worked on banking applications handling large structured and transactional datasets.
- Collaborated closely with HDFC's technical team to enhance features, fostering a positive user experience.
- Performed API testing using Postman and validated responses to ensure data accuracy and system reliability.
- Ensured data accuracy and system reliability by combining data analysis with testing and validation techniques.

ANALYTICS & DEVELOPMENT PROJECTS

1. Asset Tracker(Operations & Asset Analytics)

- Analyzed PAN-India asset data using **SQL** and **Excel**, performing data cleaning and validation
- Built **Power BI** dashboards to visualize asset utilization and support operational decision-making
- Developed and supported the underlying **OutSystems application and database** to enable real-time asset tracking across locations
- Performed data validation and testing to ensure accuracy of asset tracking across systems.

2. ML Pre-Approved(Loan Data Analysis System)

- Extracted and analyzed loan-related customer data from **SQL** databases using APIs to support faster processing
- Cleaned and validated loan datasets to ensure accuracy and consistency for reporting
- Developed and maintained the underlying **.NET-based** banking application to enable secure and efficient data retrieval using PAN numbers
- Tested APIs and validated loan data responses to ensure correct data flow and processing.

3. Menu Audit(HR / Staff Reporting)

- Analyzed and organized staff and contract employee data using **SQL** to support reporting needs
- Created SQL-based reports to reduce manual data retrieval and improve data accessibility
- Developed and supported the **OutSystems application with API integration** to provide streamlined access to staff details
- Verified report accuracy through data validation and testing of SQL queries.

4. PayLoad(Data Retrieval & Validation)

- Queried and analyzed loan datasets from **SQL** databases using File Number as input.
- Validated and structured data by processing JSON responses for accurate reporting.
- Developed and supported **.NET Core Web APIs** to enable secure and efficient loan data retrieval.
- Conducted API testing and validated JSON responses to ensure reliable data retrieval.

EDUCATION & CERTIFICATIONS

Data Analyst

Dec 2025 - Present

Web Development

Feb 2022 - Sep 2022

Bachelor Of Science in Information Technology

Jun 2017- Oct 2020

VPM R Z SHAH COLLEGE, Mumbai
